CONTENTS

Research Papers

The hydrogeology and groundwater resources development of the Cambro–Ordovician sandstone aquifer in Saudi Arabia and Jordan
J.W. Lloyd (Birmingham, U.K.) and R.H. Pim (Kingston-upon-Thames, U.K.) 1
Dissolved common gases in groundwaters of the Appalachian region
E. Almon and M. Magaritz (Rehovot, Israel) 21
A discussion on unbiased plotting positions for the general extreme value distribution
S.L. Guo (Galway, Ireland) 33
Unbiased plotting position formulae for historical floods
S.L. Guo (Galway, Ireland) 45
Soil loosening and drainage of structurally unstable silty soils
S.J. Twomlow, R.J. Parkinson (Newton Abbot, U.K.) and I. Reid (London, U.K.) . . . 63
Acid neutralization capacity variations for the Hafren forest stream, mid-Wales: inferences for hydrological processes
C. Neal, A. Robson and C.J. Smith (Wallingford, U.K.) 85
Hydrochemical characterization of the water dynamics of a karstic system
P. Vervier (Villeurbanne, France) 103
Daily surface moisture model for large area semi-arid land application with limited climate data
M. Owe (Greenbelt, MD, U.S.A.) and A.A. van de Griend (Amsterdam, The Netherlands) 119
Contamination of soil and groundwater by automatic transmission fluid: site description and problem assessment
A.S. Abdul, T.L. Gibson and S.F. Kia (Warren, MI, U.S.A.) 133
Use of isotope fractionation of sulfate-sulfur and sulfate-oxygen to assess bacterial desulfurication in a sandy aquifer
O. Strebel, J. Böttcher (Hannover, F.R.G.) and P. Fritz (Neuherberg, F.R.G.) 155
Application of hydrologic models to rangelands
F. Bouraoui and M.L. Wolfe (College Station, TX, U.S.A.) 173
Seasonal variation of clogging of an artificial recharge basin in a northern climate
W.M. Schuh (Bismarck, ND, U.S.A.) 193
Identification of homogeneous regions for the purposes of regionalisation
R.J. Nathan and T.A. McMahon (Parkville, Vic., Australia) 217
The effects of wildfire on soil wettability and hydrological behaviour of an afforested catchment
D.F. Scott (Pietermaritzburg, South Africa) and D.B. van Wyk (Stellenbosch, South Africa) 239
Modelling catchment evaporation: an objective comparison of the Penman and Morton approaches
P. Doyle (Galway, Ireland) 257
Conceptual and computational aspects of the mixing cell method to determine groundwater recharge components
A. Gieske (Gaborone, Botswana) and J.J. de Vries (Amsterdam, The Netherlands). . . 277
Chemical and isotopic evidence for hydrogeochemical processes occurring in the Lincolnshire Limestone
P.K. Bishop and J.W. Lloyd (Birmingham, U.K.) 293
Application of satellite remote sensing to estimate areal evapotranspiration over a watershed

Y. Sucksdorff (Helsinki, Finland) and C. Ottle (Issy-les-Moulineaux, France) 321
On modelling hillsope water flow paths and travel times
A. Calver and P. Binning (Wallingford, U.K.). 335
The matched diffusivity technique applied to kinematic cascades. I. Model description and validation
B.H. Schmid (Vienna, Austria). 345
The matched diffusivity technique applied to kinematic cascades. II. Analysis of model performance
B.H. Schmid (Vienna, Austria). 363
Runoff chemistry as an indicator of runoff sources and routing in semi-arid, badland drainage basins
D.H. de Boer and I.A. Campbell (Edmonton, Alta., Canada) 379
Estimation of natural groundwater recharge in the Karoo aquifers of South Africa
G.J. van Tonder and J. Kirchner (Bloemfontein, South Africa). 395

Erratum. 421

Announcement. 423
